

AVINASH SHAJAN

PRODUCT DESIGNER | ENTERPRISE FINTECH UX | AI-FIRST DESIGN

Dubai, UAE • +91 7559082108 • avinashts1122@gmail.com • linkedin.com/in/avinashshajan • avinashshajan.com

PROFESSIONAL SUMMARY

Product Designer with 5+ years delivering AI-first, user-centered designs across fintech, SaaS, e-commerce, and enterprise platforms. Currently designing a Dubai-based fintech ecosystem, delivering end-to-end product design across product strategy, feature prioritization, design systems, and developer handoff. Consistent record of data-driven, measurable impact: 50% reduction in onboarding friction, 35% uplift in engagement, 45% reduction in payment drop-offs. Skilled in cross-functional collaboration with Product and Engineering teams, shaping user stories and acceptance criteria, driving sprint planning and release alignment while balancing technical feasibility with conversion optimization. NIAT alumnus with deep expertise in enterprise UX, B2B and B2C Product Design, Full-Stack Development and generative AI-assisted workflows.

CORE COMPETENCIES & SKILLS

Product Design: Product Strategy, UX Strategy, End-to-End Product Design, User Research, Interaction Design, Information Architecture, User Flows, Journey Maps, Wireframes, Prototyping, Workshop Facilitation, Design Systems, Component Libraries, Usability Testing, A/B Testing, Data-Driven Design, Accessibility (WCAG 2.1 AA), Design-to-Development Handoff

Tools & Tech: Figma, FigJam, Adobe XD, Miro, Maze, Jira, Confluence, Notion, Google Analytics (GA4), Mixpanel, Hotjar, Microsoft Clarity, Zeplin, Figma Dev Mode, React, TypeScript, Tailwind CSS, Generative AI (Claude, ChatGPT, Gemini, Perplexity)

Domains: FinTech, SaaS, Enterprise Applications, AI & Generative AI Products, B2B & B2C Platforms, E-commerce, Mobile Platforms, Digital Payments, Banking & Financial Services, Real-time Collaboration, Growth Design, Conversion Optimization

Leadership: Product Strategy, Feature Prioritization, Roadmap Planning, Sprint Planning, Release Alignment, Technical Feasibility, Stakeholder Management, Cross-functional Collaboration, Agile / Scrum, Design Sprints, Design Reviews

EXPERIENCE

UX Designer | Starlfinx Fintech Technology EST **Nov 2025 — Present • Dubai, UAE (Onsite Projects)**

- Worked on end-to-end product design for a core Fintech Ecosystem during Phase 2 onsite in Dubai.
- Redesigned onboarding and device setup flows, reducing first-time user friction by 50% and task completion time by 30%.
- Redesigned the homepage with a customizable widget system, increasing daily active user engagement by 35%.
- Lifted customer retention by 20% and conversion by 30% through streamlined payment and checkout UX.
- Designed and maintained scalable design systems that reduced cross-functional design and development effort by 35%.

UX Designer | Starlfinx Fintech Technology PVT Ltd **Jul 2025 — Nov 2025 • Chennai, India**

- Delivered end-to-end product design for a comprehensive Fintech Ecosystem during Phase 1 in Chennai.
- Conducted market research and mapped user journeys to reduce merchant onboarding workflow friction by 40%.
- Collaborated with executive stakeholders and tech leads to prioritize MVP features, reducing development scope by 30% and eliminating scope ambiguity.
- Produced interactive high-fidelity Figma prototypes and user testing sessions to validate core transaction flows.

EXPERIENCE (CONTINUED)

Software Engineer | Metric Tree Labs Pvt Ltd

May 2024 — Jan 2025 • Kochi, India

- Collaborated closely with Product, Design, and Engineering squads to build user-facing web applications.
- Reduced UI inconsistencies and design-to-development rework by 30% by developing pixel-perfect, consistent frontend interfaces with reusable component architectures.
- Participated in daily Agile standups, sprint estimation, and code reviews ensuring accessibility and responsive performance.

Full-Stack Developer | TechWyse IT Solutions Pvt Ltd

Feb 2022 — Mar 2024 • India

- Developed and maintained responsive web applications across the end-to-end product lifecycle.
- Worked on frontend implementation, global state management, and component optimization, boosting performance by 25% and eliminating redundant re-renders.
- Integrated enterprise CRM modules and payment pipelines through RESTful APIs and secure authentication.

SELECTED CASE STUDIES & HIGHLIGHTS

Fintech POS Ecosystem (Dubai Onsite) • [Product Strategy & Design System](#)

Architected end-to-end tablet and handheld POS interfaces for multi-tier retail merchants in the UAE. Designed modular quick-billing flows, dynamic payment splitters, and an offline-first sync architecture that reduced checkout processing time by 45%.

Enterprise Merchant Dashboard & Analytics • [Data Visualization & Growth UX](#)

Built a customizable widget-based homepage giving store owners real-time cashflow forecasting and inventory alerts. Uplifted DAU engagement by 35% and cut merchant support tickets by 28% through contextual micro-interactions.

Universal Design Token & Component System • [Design Ops & Frontend Bridge](#)

Established automated token synchronization connecting Figma styles with React Tailwind component libraries. Standardized spacing, color palettes, and typographic hierarchies, cutting sprint cycle handoff time by 35%.

EDUCATION & CREDENTIALS

Full-Stack Development (MERN Stack) | NIAT, NxtWave of Innovation in Advanced Technologies

2020 — 2021

Intensive training in full-stack engineering and user interfaces. Specializations in HTML, CSS, JavaScript, React, Figma, UI/UX Design, Product Design, Web Design, and Mobile App Design.

Bachelor of Commerce (B.Com) | Kannur University

2016 — 2020

Specialized in Consumer Psychology, Consumer Behaviour, Accounting, Human Psychology, Business Strategy, Critical Thinking, and Problem Solving.
