Based in Dubai, UAE

PROFESSIONAL SUMMARY

[View Portfolio](#)

Product Designer with **5+** years delivering AI-first, user-centered designs across fintech, SaaS, e-commerce, and enterprise platforms. Currently designing a Dubai-based (Onsite Projects) fintech ecosystem, delivering end-to-end product design across product strategy, feature prioritization, design systems, and developer handoff. Consistent record of data-driven, measurable impact: 50% reduction in onboarding friction, 35% uplift in engagement, 45% reduction in payment drop-offs. Skilled in cross-functional collaboration with Product and Engineering teams, shaping user stories and acceptance criteria, driving sprint planning and release alignment while balancing technical feasibility with conversion optimization. NIAT Hyderabad alumnus with deep expertise in enterprise UX, B2B and B2C Product Design, Full-Stack Development and generative AI-assisted workflows.

EXPERIENCE

UX Designer

November 2025 - Present

Starlfinx Fintech Technology EST, Dubai (Onsite)

Dubai, UAE (Onsite)

- Worked on end-to-end product design for a core Fintech Ecosystem during **Phase 2, Onsite in Dubai**.
- Redesigned onboarding and device setup flow, reducing first-time user friction by 50% and improving adoption.
- Contributed to end-to-end product design for fintech (B2B & B2C), reducing task completion time by 30%.
- Delivered production-ready designs under tight timelines, reducing iteration cycles by 25%
- Drove the platform homepage redesign with a customizable widget system, increasing user engagement by 35%
- Conducted user research across key workflows, lifting efficiency 40%, conversion 30%, retention 20%.
- Designed scalable design systems and reusable components, reducing design and dev effort by 35%.

UX Designer

July 2025 - November 2025

Starlfinx Fintech Technology PVT Ltd

Chennai, India

- Delivered end-to-end product design for a Fintech Ecosystem during **Phase 1** (initial stage), **Chennai, India**.
- Conducted market research and identified existing problems, resulting in a 40% reduction in workflow friction.
- Mapped end-to-end fintech user journeys across the ecosystem, reducing workflow friction by 40%.
- Prioritized MVP features through stakeholder collaboration, reducing development scope by 30%.
- Facilitated design presentations and stakeholder workshops, improving cross-functional alignment by 40%.
- Mapped business requirements into design strategy via discovery workshops, reducing scope ambiguity by 30%.

Software Engineer

May 2024 - January 2025

Metric Tree Labs Pvt Ltd

Kochi, India

- Collaborated with Product, Design, and Engineering teams to build user-facing web applications.
- Implemented responsive, user-focused web applications, reducing design-to-development gaps by 30%.
- Reduced UI inconsistencies by 30% through close collaboration with UX on reusable components.
- Improved design implementation accuracy by 30%, delivering pixel-perfect, consistent frontend interfaces.
- Reduced design-to-dev rework by 25%, translating requirements into feasible, user-friendly interfaces.

Full-Stack Developer

February 2022 - March 2024

TechWyse IT Solutions Pvt Ltd

Kochi, India

- Developed and maintained web applications, working with UX and Product teams across the product lifecycle.
- Collaborated with product managers and designers to translate requirements into functional features.
- Worked on frontend implementation, gaining understanding of UI behavior, responsiveness, interaction patterns.
- Implemented state management and component optimization, boosting performance 25% reducing re-renders.
- Developed RESTful APIs for seamless CRM module integration

SKILLS

Product Design

Product Thinking, UX Strategy, End-to-End Product Design, User Experience Design, User Research, Interaction Design, Information Architecture, User Flows, Journey Maps, Wireframes, Prototyping, Workshop Facilitation, Design Systems, Component Libraries, User-Centered Design, Design Critiques, Product Discovery, Usability Testing, Evaluative Research, A/B Testing, Experimentation, Data-Driven Design, Metrics-driven Design, Feature Discovery, Product Analytics, Visual Design, Visual Hierarchy, Responsive Design, Accessibility, Design-to-Development Handoff, Design Validation, Heuristic Evaluation, Acceptance Criteria, Design Ops

Tools

Figma, FigJam, Adobe XD, Miro, Maze, Jira, Confluence, Notion, Google Analytics (GA4), Hotjar, Microsoft Clarity, Mixpanel, Firebase Analytics, Zeplin, Figma Dev Mode, ChatGPT, Claude, Gemini, Perplexity, Figma AI

Domains

FinTech, SaaS, Enterprise UX, Enterprise Applications, AI & Generative AI Products, B2B & B2C Platforms, E-commerce, Mobile Platforms, Digital Payments, Banking & Financial Services, Real-time Collaboration, Growth Design, Conversion Optimization

Leadership

Product Strategy, Feature Prioritization, Roadmap Planning, Sprint Planning, Release Alignment, Technical Feasibility, Stakeholder Management, Cross-functional Collaboration, Mentorship, Agile / Scrum, Design Sprints, Design Reviews, Cross-timezone Collaboration

EDUCATION

Full-Stack Development (MERN Stack)

2020 - 2021

NIAT, NxtWave of Innovation in Advanced Technologies

Nanakramguda, Telangana, India

HTML, CSS, JavaScript, Bootstrap, React, Figma, UI/UX Design, Product Design, Web Design, Mobile App Design, Wireframing, Prototyping, Design Systems, UI Components

Bachelor of Commerce (B.com)

2016 - 2020

Kannur University

Kannur, Kerala, India

Accounting, Financial Management, Business Economics, Human Psychology, Taxation, Business Strategy, Organizational Behaviour, Consumer Behaviour, Critical Thinking, Problem Solving

CERTIFICATIONS AND LEARNINGS

IRC Certified

2021

NIAT, NxtWave of Innovation in Advanced Technologies

Master Advanced UI UX Designing

2025

Tute Dude

Digital Accessibility As A Mindset

2026

Domestika
